Toilet Deodorizers

STF 3000 BIO & 5000 BIO

Environmentally Friendly Liquid Deodorizer

BIO 3000 liquid deodorizer contains all-natural, bacteria and enzyme base that provide superior portable restroom odor control in all months. The fast-acting, natural ingredients in this formula break down waste to prevent piling and actually dissolves residual waste that may collect on sidewalls or tubing within the tank which typically develop into lasting odors.

BIO 5000 is the most concentrated, environmentally safe liquid toilet deodorizer on the market. From normal temperatures to high heat, the all-natural, bacteria and enzyme makeup in BIO 5000 block the formation of odor causing bacteria before they begin to multiply.

Fragrances: Bio Fresh
1, 6, 55 and 275 Gallons

BIO Quick-Scents 30g

Environmentally Safe

The advantage of using **Bio QuickScents 30 gram** toilet deodorizer packets is the reduced cost per service compared to the Bio QuickScents 60 gram. The smaller size 30 gram packet contains the same active ingredients of the 60 gram, but in less quantity, making it ideal for moderate traffic, moderate heat conditions. In the same way, 30 gram packets also break down waste to prevent piling and clean tank walls and tubing where residual waste can dry and cause lasting odors.

Outer film may not dissolve in brine water solution. For best results use **STF Bio Liquids**.

Fragrance: Bio Fresh
400 per Case (80 packets per bag)

BIO Quick-Scents 60g

High Heat & High Traffic

Bio QuickScents 60 gram portable restrooms deodorizers are our most powerful, all-natural, powder packets having a unique combination of odor control and cleaning power to insure your portable restrooms remain fresh and clean. The all-natural ingredients in Bio QuickScents 60 gram break down waste to prevent piling and dissolve residual waste found on tank walls and tubing, two things that cause the greatest amount of odors. Along with the benefits to your portable restrooms, the active ingredients are also beneficial to waste treatment plants, eliminating any worries about dumping.

Outer film may not dissolve in brine water solution. For best results use **STF Bio Liquids**.
