8% NATURAL, ORGANIC ACID PROVIDES EFFECTIVE CLEANING ACTION:

Consume Bio-Bowl contains a natural, organic acid, the same citric acid found in real lemons and limes. By its very nature, this natural organic acid provides efficient cleaning action which quickly removes soap scum, water spots and light rust from toilet bowls, urinals and shower room walls and floors.

ELIMINATES ODORS:

A special blend of potent strains of natural digesters eat away at odor causing elements such as urine, feces, blood and vomit, literally destroying the source of persistent, obnoxious odors. In addition, the digesters provide continuous cleaning and odor elimination over an extended period of time.

SEPTIC TANK FRIENDLY:

Consume Bio-Bowl helps keep drains and pipes free flowing. Septic tanks and pretreatment systems are enhanced through added biological augmentation of downstream wastewater.

SAVES TIME AND MONEY:

Using Consume Bio-Bowl eliminates the need for two traditional products: a toilet bowl cleaner and another product for odor control. In addition, labor time is cut in half. Consume Bio-Bowl's residual odor elimination ability reduces the frequency of maintenance schedules. Consume Bio-Bowl is ready-to-use-no mixing-no waste.

PLEASANT AND PRACTICAL TO USE:

An aqua fresh fragrance with a citrus note, makes Consume Bio-Bowl pleasant to use and leaves surrounding areas smelling fresh and clean. The product viscosity provides horizontal and vertical clinging action to promote longer contact time and enhanced cleaning ability without strenuous physical labor.

REVOLUTIONARY, PATENTED FORMULA!

The chemical composition of Consume Bio-Bowl is unique in its ability to stabilize the natural digesters in the presence of organic acids. Normally, digesters and acids cannot coexist in a formula. Spartan chemists have succeeded where others have failed and the result is breakthrough biotechnology. U.S. Patent No. 6387874.

WHO CAN BENEFIT?

Consume Bio-Bowl is the solution for anyone who cleans toilets, urinals and shower rooms, but cannot eliminate persistent, obnoxious odors.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before using, read product label and MSD sheet.

Toilet Bowls and Urinals:

1. With swab mop applicator, remove water from bowl by forcing over trap.
2. Apply 1-2 oz. evenly onto surface to be cleaned.
3. Swab entire surface area especially under the rim where water outlets are located.
4. Flush toilet and rinse applicator thoroughly.

Shower Rooms (Floors, Walls) Porcelain, Ceramic, Fiberglass and Similar Hard, Non-Porous Surfaces:

1. Apply Consume Bio-Bowl evenly onto surface to be cleaned. Use a coarse spray. Do not mist.
2. Agitate lightly with sponge, brush or swab mop. Extremely heavy soils may require extended contact time.
3. Rinse thoroughly.

Dumpsters:

Apply to dumpsters using foam gun. Scrub difficult-to-clean areas. Rinse as needed.

Note: Do not use on non-acid resistant surfaces. This product will etch or otherwise damage marble and other non-acid resistant surfaces. Do not mix with bleach, ammonia or any other chemicals.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATION DATA:

Specific Gravity – 1.03 @ 24°C/75°F

Density – 8.57 lbs./gal/@ 24°C/75°F

pH – 1.5 – 2.5

Viscosity – >200 cps

Color – Light Blue

Fragrance – Aqua Fresh

Stability:

- a. Shelf @24°C/75°F – 1 year
- b. Accelerated @ 38°C/100°F 3 months
- c. Freeze/Thaw - 3 cycles

Contains over 200 billion microorganisms per gal.

Phosphate Free
