GS COMPOUND DESCRIPTION:

Citric acid is a proven hard water scale remover. Manufactured from several renewable natural resources: citrus fruits, pineapple waste or even fermentation of crude sugars.

Ethoxylated alcohols are made from linear primary alcohols.

Xanthan gum is a thickening agent produced naturally by bacteria.

EFFECTIVE CLEANING WITH CITRIC ACID:

GS Restroom Cleaner contains 8% citric acid. Citric acid provides efficient cleaning action that quickly removes soap scum, water spots and light rust from toilet bowls, urinals and similar hard, non-porous bathroom surfaces.

ALL IN-ONE/SAVES TIME AND MONEY:

GS Restroom Cleaner is a ready-to-use product; and one product is all that is needed to address the cleaning and maintenance needs of busy, high traffic restrooms. GS Restroom Cleaner cleans and disinfects. No mixing. No waste. No spills. Minimal custodial training time is all that's needed. Ease of use, plus the multiple tasks that can be tended to with GS Restroom Cleaner makes it an economical choice.

DISINFECTION ACTIVITY:

GS Restroom Cleaner is a cleaner and a proven disinfectant. GS Restroom Cleaner is effective against:

- Staphylococcus aureus
- Pseudomonas aeruginosa
- Salmonella choleraesuis.
- Herpes simplex Type 2
- Influenza A
- Pandemic 2009 H1N1 influenza A virus

It has the dynamic ability to powerfully disinfect bathroom surfaces while improving the overall appearance of surfaces with its efficient cleaning capabilities. GS Restroom Cleaner will play a vital role in any restroom maintenance program.

PRACTICAL TO USE:

The product viscosity provides vertical clinging action to promote longer contact time and enhanced cleaning ability without strenuous physical labor.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before using, read product label and MSD sheet. It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Disinfecting, Cleaning and Deodorizing Toilet Bowls and Urinals:

Remove gross filth before disinfection. Empty toilet bowl or urinal and apply 1-2 ounces of product to exposed surfaces with a brush or swab mop. Brush or swab thoroughly, especially under the rim. Let stand for 10 minutes, then flush.

Disinfecting, Cleaning and Deodorizing Ceramic Tile, Porcelain, Shower Walls and Other Hard Non-porous Bathroom Surfaces:

Remove gross filth before disinfection. Apply 1-2 ounces of GS Restroom Cleaner with a cloth, mop, sponge or coarse sprayer.

DO NOT MIST. Treated surfaces must remain wet for 10 minutes. Scrub and rinse thoroughly with water.

NOTE: Do not use on non-acid resistant surfaces. This product will etch or otherwise damage marble and other non-acid resistant surfaces. Do not mix with bleach, chlorinated detergents or other chemicals as toxic or irritating fumes may be released.

See product label for complete directions for use and more applications.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.
