

Bar Glass Sanitation Program • Premeasured Packets • Dispenser Free

Packaged for Institutional and Industrial Use

The Bar-Master® program includes a complete line of products for cleaning and sanitizing bar glasses. All products are packaged in premeasured packets to create perfect strength solutions. Bar-Master cleaners produce sparkling clean glassware without streaks, odor, or residue.

Proper Bar Glass Cleaning: Proper bar glass cleaning produces a thick creamy foam head which results in more glasses per barrel adding up to maximum profits. For the cleanest bar glasses, consider the following:

- Electric brushes offer the most effective cleaning process.
- Never use dish detergents. Many are petroleum-based and will leave an oily film, eliminating foam head.
- Dishwashing machines are not effective because they lack the brushing process and will leave a greasy film.
- Bleaches may sanitize, however they leave offensive odors that will affect the beer taste.
- After sanitizing, place the glasses on the drain board to air dry. Do not towel dry.

	<p>High Suds Bar Glass Cleaner Specifically formulated to clean glassware. For use with manual brushes and when washing glasses by hand.</p>	<table border="1"> <tbody> <tr> <td>ST Product #</td> <td>ST-765</td> <td>ST Product #</td> <td>ST-855</td> </tr> <tr> <td>New Product #</td> <td>#2576502</td> <td>New Product #</td> <td>#2508552</td> </tr> <tr> <td>UPC No. Mfg.
