EXCELLENT LATHER:

The bio-based raw materials used in Lite'n Foamy Sunflower Fresh produce a luxurious foam that leaves the skin clean and soft after each use. This cutting-edge formulation contains naturally derived actives to form an excellent lather to clean daily soils found on the skin and hair.

MOISTURIZING AND PLEASANT TO USE:

Lite'n Foamy Sunflower Fresh contains Aloe Vera to prevent the skin from drying out. All the ingredients in Sunflower Fresh are safe to the skin and will not contribute to flaking and itching. The rich emollients and refreshing sunflower fragrance create a product that is pleasant to use.

GREEN SEAL™ CERTIFIED:

This product meets the Green Seal™ standard for industrial and institutional hand cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

BIO-BASED FORMULA SEAL:

Lite'n Foamy Sunflower Fresh is certified by a third party to contain 85% bio-based material. The testing was performed by an outside, USDA approved, laboratory to insure the bio-based content. The bio-based seal, found on product labels and literature, allows end users to easily identify the bio-based content in each BioRenewables product. This seal guarantees the percentage of ingredients that are made from renewable resources.

WHY BIO-BASED?

There have been several Government initiatives over the past five years to increase

our support of the agricultural industry and reduce our nation's dependency on foreign petroleum resources. The Farm Security and Rural Investment Act (FSRIA) addresses bio-based products and defines them as a commercial or industrial product that is composed, in whole or significant part, of biological products or renewable domestic agricultural materials or forestry materials. Therefore, industrial products, such as surfactants and solvents are now being produced from renewable plant resources, which are typically biodegradable, friendlier to the environment and supportive of the agricultural industry. The federal government has mandated, through the FSRIA, that federal agencies purchase bio-based products whenever possible.

DIRECTIONS FOR USE:

Some individuals may be sensitive to ingredients in this product. Before use, read product label and MSD sheet. If questions remain, consult your employer or a physician.

USE ONLY WITH FOAM SOAP DISPENSERS:

Hand Cleaning: Dispense small amount of product into wet palms. Lather and rinse hands with clean water.

Hair and Body Shampoo: Apply directly to wet skin, damp cloth, mesh sponge or loofah. Shampoo hair and skin. Rinse thoroughly.

Be sure to read all Directions, Precautionary and First Aid Statements on product labels before use of this or any Spartan product. If questions remain, consult your employer or a physician. Material Safety Data Sheets for all Spartan products are available from your authorized Spartan distributor or by visiting www.spartanchemical.com.

SPECIFICATION DATA:

- pH – 5.5 - 6.5
- Specific Gravity – 1.005
- Viscosity – Water thin
- Color – Pale Yellow
- Stability:
 - a. Shelf @ 24°C/75°F – One year minimum
 - b. Accelerated @ 49°C/120°F – 60 days minimum
 - c. Freeze/Thaw – Can withstand 3 cycles
- Biodegradable
- Phosphate free

PACKAGING

330555	55-gallon drum
330505	5-gallon pail
330504	1-gallon (4 per case)

Label copy is provided in English, Spanish and French. Secondary labels are also available.
