FOAM**
Refresh
PRODUCT INFORMATION

CLEANSING

STOKO® REFRESH 4 in 1 Anti-bacterial advanced formula foam with 0.5% Triclosan removes and kills 99.99% of common germs that cause illness including MRSA.

Description

STOKO® REFRESH 4 in 1 Antibacterial Foam has high customer preference with thick foam that provides a luxurious hand wash. Kills 99.99% of the most common germs and effectively promotes frequent hand washing with a fresh neutral fragrance. Skin conditioners provide extra care that leave skin feeling smooth and healthy.

Each refill features the Hygeni-Lok® system which ensures a safe, clean, hygienic product, free from germs and bacteria. The bottle and pump are completely replaced with every changeout providing a fresh new system each time. The high performance patented foaming pump provides a full bodied foam with no clogging. The efficiency of the foaming pump helps to give a cost savings. Each activation of the pump releases .4ml of soap.

SKU#34969 1000ml
Provides up to 2,500 pumps per 1000ml refill.

Directions for Use

- Pump foam in palm of hand, add a little water and wash thoroughly.
- Rinse thoroughly with potable water after washing.

Skin Compatibility

Under conditions of a Human Patch Test, no evidence of primary irritation or allergic hypersensitivity was found. No negative reactions occurred after 24, 48 and 72 hours.

First Aid

For external use only. If STOKO® REFRESH Anti-Bacterial Foam accidentally enters the eyes, flush immediately with lukewarm water and contact a physician. Discontinue use if irritation or redness develops. If condition persists for more than 72 hours, consult a physician. Keep out of reach of children. If swallowed, call your physician.

Storage Information

STOKO® REFRESH Anti-Bacterial Foam can be stored in a closed container for 24 months at room temperature.

All STOKO® Skin Care products are tested for stability at temperatures between 23°F and 104°F. When tested at temperatures below 41°F and above 86°F, the products begin to fluctuate in viscosity. Hand cleaners may become cloudy or freeze partially at temperatures of 32°F or below, however, they are usable after thawing. For optimum dispensing performance, keep from freezing temperatures.

Additional Information

Occupational skin irritation, frequent washing or harsh climates can lead to dry, rough and chapped skin. This condition can result in irritation/rupture of the outer layer of the skin which impairs its natural protective function. To help regenerate damaged tissue after work, the skin should be regularly treated with Stoko Lotion, Stokolan or Stoko SkinRelief. In doing so, the skin is replenished with moisture, lipids and hydrophilic nutrients. People who already have extremely rough or very dry skin are advised to use a before-work, barrier-like cream with high oil content. Contact STOKO Skin Care or its appointed distributors for advice on selecting the appropriate products.
