

SECTION 1: IDENTIFICATION				
1.1 Product Identifier		Trade Name – Dine-a-Heat	[®] , Ethanol Gel	
1.2 Common Names or Synonyms		Green fuel		
1.3 Recommended use of the ch restrictions on use	emical &	Food Warming Fuel		
1.4 Supplier's name, address &	-	Dine-a-Heat [®] Le-Jo Enterprises, Inc. 765 Pike Springs Road Phoenixville, PA 19460 484-921-9000 www.lejo.com CHEMTREC 800-424-9300 -	- NORTH AMERICA	
1.5 Supplier's emergency phone	5 Supplier's emergency phone number		WORLDWIDE	
SECTION 2: HAZARD(S) IDENT	IFICATIO	N		
2.1 Hazard classification of the substance/mixture		Word	Symbol	
		Danger	GHS02 Flame	
	H228 Flamable Solid			
	Classification according to Directive 67/548/EEC or			
	Directive 1999/45/EC			
2.2 Signal word and label	Hig	ghly Flammable	*	
elements	R11 Highly Flammable			
	Information	• •	s for human and	
	The product "General Cla valid versior	has to be labelled due to the ca assification guideline for prepara n.		
	extended by accordance supplemente	cation is according to the latest e company and literature data. The with the latest editions of internated by information from technical	ne classification is in itional substances lists, and is	
2.3 Hazard statements	provided by	the company. See above		
	Precautiona	ary statements & responses:		
	• P101: If medical advice is needed, have product container or			
	label at hand			
	 P102: Keep out of reach of children 			
2.4 Other hazards/statements	P103: Read label before use			
	 P210: Keep away from heat/sparks/open flames/hot surfaces. – No smoking 			
	P280: Wear eye/face protection			
	• P235: Ke	eep cool		

Indication of Immediate Medical Attention & Special TreatmentIngestionCall for medical help immediately out mouth and then drink plenty water, do not induce vomitingSECTION 5: FIREFIGHTING MEASURESNo further relevant information available5.1 Suitable (& unsuitable) extinguishing methodsSuitable: C02, powder or water spray. Fight larg with water spray or alcohol resistant foam.5.2 Specific hazards arising from theNo further under the plane bit formation available			
Indication of Immediate Medical Attention & Special Treatment No further relevant information available SECTION 5: FIREFIGHTING MEASURES Suitable (& unsuitable) extinguishing methods 5.1 Suitable (& unsuitable) extinguishing methods Suitable: C0 ₂ , powder or water spray. Fight large with water spray or alcohol resistant foam.			
Indication of Immediate Medical Attention & Special Treatment No further relevant information available SECTION 5: FIREFIGHTING MEASURES Suitable (& unsuitable) extinguishing methods 5.1 Suitable (& unsuitable) extinguishing methods Suitable: C0 ₂ , powder or water spray. Fight large with water spray or alcohol resistant foam. 5.2 Specific bazards arising from the Suitable (& unsuitable)			
Attention & Special Treatment No further relevant information available SECTION 5: FIREFIGHTING MEASURES Suitable (& unsuitable) extinguishing methods Suitable: C02, powder or water spray. Fight large with water spray or alcohol resistant foam. 5.2 Specific bazards arising from the Suitable (Suitable) extinguishing methods Suitable: C02, powder or water spray. Fight large with water spray or alcohol resistant foam.

chemical No further relevant information available	No further relevant information available		
	 In the event of fire, wear self-contained breathing 		
5.3 Special protective equipment & apparatus	cimig		
precautions for firefighters • Wear fully protective suit			
	 Cool endangered receptacles with water spray 		
SECTION 6: ACCIDENTAL RELEASE MEASURES	'7		
Personal:			
 Keep away from ignition sources 			
	 Wear protective equipment, keep unprotected persons away 		
emergency procedures Environmental:			
Do not allow to enter sewers/surface or group	Ind		
water			
Ensure adequate ventilation			
See section 7 for information on sage handlin	na		
	-		
	 See section 8 for information on personal protection equipment 		
• • • • • • • • • • • • • • • • • • • •	 See section 13 for information on disposal 		
·	see section 13 for information on disposal information		
SECTION 7: HANDLING & STORAGE			
Keep ignition sources away – do not smoke			
Sate handling			
 7.1 Safe handling & advice storage precautions, Protect against electrostatic charges Protect from heat 			
 including incompatibilities Storage/Transport Store in cool, dry place Store in tightly closed receptacles 			
• Store in ugnuy closed receptacies • Protect from heat and direct sunlight			
SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION			
8.1 Control parameters 64-17-5 ethanol			
based on OSHA'a permissible PEL (USA) 1900 mg/m ³ , 1000 ppm			
exposure limits (PFL's) & REL (USA) 1900 mg/m ³ , 1000 ppm			
OSHA's threshold limit (USA) Short-term value: 1880 mg/m ³ , 1000 ppm			
values (TLV's) EL (Canada) Short-term value: 1000 ppm			
EV (Canada) 1,900 mg/m ³ , 1,000 ppm			
75-65-0 2-methylpropan-2-ol			
PEL (USA) 300 mg/m ³ , 100 ppm			

Safety Data Sheet according to Globally Harmonized System (GHS)

		<u> </u>
	REL (USA)	Short-term value: 450 mg/m ³ , 150 ppm
		Long-term value: 300 mg/m ³ , 100 ppm
	TLV (USA)	303 mg/m ³ , 100 ppm
	EL (Canada)	100 ppm Chart term values 150 ppm
	EV (Canada)	Short-term value: 150 ppm Long-term value: 100 ppm
8.2 Appropriate engineering		Long-term value. 100 ppm
controls	N/A	
	General	Wash hands before breaks and at the end of work
	Eyes	Safety Glasses
	Respiratory	Not required
8.3 Personal protection measures, protective equipment recommendations & exposure controls	Hands	 The glove material has to be impermeable and resistant to the product/ the substance/ the preparation Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation Glove Material - The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application Penetration time of glove material - The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed
