

# VersaFill® 3

## chemical dispensing system

The VersaFill 3 dilution and dispensing system offers employee safety, accurate diluting, and cost-control. Professional products must be used as specified in order to comply with safety statements and OSHA regulations. Over-proportioned chemicals equal a higher in-use cost, and in order to ensure efficacy against a specified organism, disinfectants must be properly diluted. Ensure safety and accuracy with the Spartan VersaFill 3 dilution and dispensing system.
