

## VERDE WINSIGHT GROUP

February 26, 2025

Dear Valued Customer,

Due to the continuing increases in raw material and tariffs, Verde Winsight Group will implement an increase on select items. This increase is effective for orders received on/after March 03, 2025. We understand that historically a set increase percentage by category is announced however we are trying to limit cost increases as much as possible versus applying one rate across all items.

Main categories affected by the increase include:

- All hinged containers
- Aluminum
- Paper Portion Cups

All active contracts will remain in place until their expiration.

Please contact us directly if you have any questions and updated price lists will be provided reflecting our most recent price changes.

We will continue to make every effort to get through these market conditions with minimal disruption. As always, we thank you for your understanding, continued support and partnership.

Sincerely,

*Charlene Bowering*
