

Date: November 1, 2024

Dear Valued Client,

IPC Eagle is announcing a price adjustment effective January 1st, 2025.

Due to ongoing labor, freight, and material cost increases, we must adjust pricing on certain machine platforms, parts, and consumables. While we continue to make every effort to reduce inflationary costs, we are unable to offset the entire impact. As a result, we will implement a list price adjustment, ranging from a 10% decrease to a 6% increase. Additionally, a 2% price increase for parts and consumables will take effect on January 1, 2025.

Price lists will be finalized and shared by November 15, 2024. Our customer service team will send the new 2025 price list directly to your primary purchasing contacts. If you have any questions or do not receive the information, please contact your Customer Service Representative or Regional Sales Manager.

Thank you for your continued business and being a valued client.

Best Regards,
